The USPS has set strict standards regarding size, weight, content and/or formatting of inserts, onsets and outsets that will qualify for periodicals rate postage with a periodicals-class magazine. Some examples of items that will not qualify include, but are not limited to, items that are considered to be product samples or items that include the word "catalog". Because of the scrutiny the USPS applies to every insert it is important that you supply us in advance with an actual sample of the item you wish to insert into our magazine so that we may have it evaluated for USPS compliance. If a printed sample is not available you may provide a dummy of the item.

Additional postage will be assessed and passed along to you if you do not provide a sample or dummy in advance for USPS compliance evaluation and the insert is later deemed by the USPS to be non-compliant with periodicals class requirements."
